MCA graduate with practical knowledge in full-stack web development using React and Node.js. Acquired skills through online courses and valuable internship experiences. Quick learner, problem solver, and dedicated team player. Looking forward to applying my skills in real-world projects and building my career in software development.

EDUCATION

Master of Computer Application, Rajiv Gandhi Institute of Technology, Kottayam 2023 - 2025
Relevant Coursework: Data structures, OOP, DBMS, Algorithms, and SRS

EXPERIENCE

Full-Stack Developer Intern Apr 2025 - Present
Sponsor Studio *Kochi*

- Built core features of Sponsor Studio, including filtering, swipe matching, user onboarding, dashboards, etc.
- Integrated payment gateway, email and phone OTP verification, email notifications, etc.

Frontend Developer Intern May 2024 - Sept 2024
Gtech Mulearn *Technopark, Trivandrum*

- Contributed to the development of the official website of Mulearn.
- Developed the official website of 'Top 100 Coders 2024' Hackathon
- Developed the official Website of 'The Foundation Program'

PROJECTS

NFT Marketplace: Built with React on the Ethereum blockchain, enabling users to mint, buy, sell NFTs with royalties, and auction digital assets with MetaMask integration and decentralized storage via IPFS. ([Live demo](#))

AI-Driven News Service: Uses web scraping to gather global and local news, delivering categorized content with AI-powered multilingual translation, summarization, text-to-speech, and daily newspaper PDFs. ([Live demo](#))

Vote-Ready (Live Project): Contributed to the development of the Vote-Ready app used by the District Collector and presiding officers during the 2024 Parliament election.

Lost and Found: A platform to post lost and found items. Built with React, NodeJS, and MongoDB. ([Live demo](#))
